Forensic psychology or law-psychology course = Must be related to forensic psychology as defined in APA’s Specialty Guidelines for Forensic Psychology or be an integrative law-psychology course and be taken for at least 3 hours of credit.

^Forensic or law and psychology project = Empirical research, extended case studies, lit critiques & analyses, or capstone projects that programs require.

**Clinical practicum with forensic content = Minimum experience of 9 months of applied supervised training for at least 10 hours per week (at least 50% clinical contact with forensic related clients).

***Supervised experience = Must include at least 50% clinical contact with forensic related clients (e.g., assessment, treatment, consultation). If offered, seminar attendance, interdisciplinary team participation, readings, and research may count as part of the supervised experience for interns & postdoctoral fellows.

****CE coursework = Must be approved by APA or by another major mental health organization.
Bold and Italicics indicate only post-licensure level that prepares you to be eligible for forensic board certification with the addition of at least 1000 hours of experience in forensic psychology obtained in either of two ways (i.e., completion of a full-time, at least one year, postdoctoral training program in forensic psychology, meeting curriculum requirements consistent with APA’s definition of forensic psychology as a specialty, or during a minimum period of five years, at least four years of which are postdoctoral).
